FOR THE EASTERN DISTRICT OF TEXAS**

UNITED STATES OF AMERICA *ex rel.*

BROOK JACKSON,

Plaintiff,

V.

Civil Action No.: 1:21-cv-00008-MJT

VENTAVIA RESEARCH GROUP, LLC;

PFIZER, INC.; ICON, PLC

Defendants.

**DECLARATION OF MEAGAN D. SELF IN SUPPORT OF PFIZER’S
MOTION TO STAY DISCOVERY**

Meagan D. Self declares pursuant to 28 U.S.C. § 1746:

1. I am a member of the bar of the State of Texas and am admitted to the bar of this Court. I am an attorney with the law firm of DLA Piper LLP (US), attorneys for Defendant Pfizer Inc. (“Pfizer”) in this action.

2. This declaration, together with the annexed exhibits, is being submitted in connection with the Pfizer’s Motion to Stay Discovery, filed May 17, 2022 (the “Motion”).

3. The Motion references documents not previously filed on this Court's docket.

4. Defendant submits as exhibits to this Declaration the following documents referenced below:

a) Attached hereto as **Exhibit 1** is a true and correct copy of Brook Jackson's website, I Am Brook Jackson, <https://www.iambrookjackson.com>, which was collected by Teris, a digital forensics company, on April 7, 2022.

- b) Attached hereto as **Exhibit 2** is a true and correct image of Brook Jackson's website, I Am Brook Jackson, <https://www.iambrookjackson.com>, as it exists on May 16, 2022.
- c) Attached hereto as **Exhibit 3** is a true and correct copy of Brook Jackson's January 17-18, 2022 Twitter string, which posts this case's caption and paragraphs 13 and 287 from her original complaint in this matter.
- d) Attached hereto as **Exhibit 4** is a true and correct copy of Brook Jackson's September 19, 2021 email, subject line *Pain in your [Explicit]*, which she posted on her website, I Am Brook Jackson, <https://www.iambrookjackson.com>.

My name is Brook Jackson. In September 2020, I was hired as a Regional Director for two of the three clinical trial sites in Texas that were participating in Pfizer's pivotal, Phase III, mRNA ("vaccine") clinical trial. Although my time with this company was brief, the misconduct that I witnessed was so blatant and so widespread that I documented numerous violations of the U.S. Food and Drug Administration (FDA) Code of Federal Regulations every, single day. After repeatedly bringing these concerns to Ventavia's management and to Pfizer directly (although anonymously), I watched in disbelief as they began their efforts to conceal the fraud.

On September 25, 2020, I filed a formal complaint with the FDA and was fired hours later.

Starting October 9, 2020, efforts by Big Pharma and Big Tech have been used to intimidate me and keep me from bringing information forward to the public. I was misled by a team of former attorneys and pressured into filing a legal action that I believe was used to keep me silenced. That action was filed on January 8, 2021, under seal and ordered me to refrain from disclosing any information about the case.

As I watched the roll out of Pfizer's product to millions, the mandates that ensued, the reports of injury and death, I could not be silent anymore. The weight on my heart was just too heavy. Even after being warned by a former lawyer that, "if you break the seal the Government will come after you", I just couldn't hold their secret any longer and took the evidence to The BMJ and retained new council.

Earlier this month the case was finally unsealed after the Government declined to intervene in support of the lawsuit. There was never an investigation by the FDA, the Department of Justice, or any other agency. All have refused to investigate the allegations of fraud and misbranding of Pfizer's Covid-19 "vaccine" for nearly a year and a half now.

Since being fired, there have been other former and current employees of Ventavia that have reached out to me. Ventavia continues to be rewarded with additional contracts, new Sponsors, and opportunity to give Big Pharma favorable data no matter the cost.

The information that I have belongs to the entire world. Those involved in this evil, massive, fraudulent scheme to censor and cover up the truth must be held accountable.

I created this website so that I can share this information and to catalogue related documents.

I wholeheartedly believe that I am where I am because I'm supposed to be here. I will not be intimidated or silenced anymore! I need to focus on this effort full time, and your support will help me expose this for exactly what it is...FRAUD.

I am determined to see those guilty be held accountable and brought to justice, even if that only ever comes in the form of public opinion.

I cannot say thank you enough for the support I have received from around the world! I will never forget.

I have nearly 20 years of experience in clinical research and the pharmaceutical and medical device industry. I have worked for investigative sites, Site Management and Contract Research Organizations. My experience in site-level coordination and a blend of in-house management have led to my success. I have both U.S. and global experience in each phase of clinical trials, and key experience in Gastroenterology, Immunology, and Infectious Diseases.

I have dedicated my career to Clinical Data Sciences. I had confidence in a regulatory process and an agency that was put in place to protect the public health by ensuring vaccines and other biological products are safe and effective. The U.S. Food and Drug Administration quit doing their job a long time ago. It's time for change and resignations, now!

Defendants' false records went to the very essence of the bargain the United States contracted for. DoD contracted to purchase vaccines found effective by a valid clinical trial conducted according to the protocol submitted by Pfizer. The integrity of the entire clinical trial 1/

was compromised by the trial protocol violations, false source documents, and the false data that resulted, which calls the vaccine's EUA into question. 2/

The EUA Pfizer obtained is based on a deeply flawed clinical trial that violated FDA regulations and the clinical trial protocol Pfizer submitted to the United States. This means that the vaccine is misbranded.3/

The alleged fraudulent scheme has caused the United States to pay billion that it would not have paid had it known that the safety and efficacy of the vaccine at issue was not accurately represented or properly proven. 4/

This means that, at worst, the vaccine could be far less effective than represented, and the United States has paid billions for something that will not protect the public from COVID-19. At best, the vaccine is effective, but Pfizer will still have profited from the pandemic. 5

The govt did state today, "We would appreciate knowing whether Ms. Jackson intends to pursue the case after the government's declination." Ha! I bet they do! I have to let all of this sink in before I decide. I just still have SO much more to show that everyone deserves to see.

All cause deaths, moving forward, need to be categorized by vaccination status.

Just re-read my email....wanted to correct that Scalise and Comer aren't senators, but congressmen.

There has been an obvious shift in the scientific community with regard to the vaccine. Why pump the brakes now and "follow the science?" This may be a question for Drs. Gruber and Krause who put in their notice and will leave their assignments in October and November, respectively; however, the committees and rules that Sen. Scalise and Comer reference in their letter to FDA clearly define the reach and ability to investigate further.

The advisory committee sent a clear message last Friday about the vaccine. More research and data transparency is vital and key to the questions these scientists are finally asking!

[REDACTED] for 20 fucking years I have been a part of a process, a clinical trial process that I believed in and that I was proud of; one that I thought was ethical and that the FDA would apply all scientific

principles and rigor to, but I was wrong. I now understand it's all political and big pharma doesn't give two cents about the American people, BUT I DO! THEY MATTER TO ME!

So, my questions are, I guess, without revealing the qui tam, why can't we talk about anything? Understanding the media ecosystem, we would obviously have to choose an appropriate network, but why can't I tell my story?

I know you want me to sit down and shut up and let you do your job and focus and be patient as you've said before, but it's eating me alive, [REDACTED]. What am I trying to gain here? What's my end game? It's not money! I don't give a shit, it's public information and the freedom for everyone to make an informed decision about their healthcare. I feel selfish. [REDACTED]

Doesn't that bother you? Why am I risking everything being swept away in a moment in time that's better than any one that's been in front of our face before with recent events, by not going public?

Maybe you'll drop me as a client, I don't know, but I don't want to do this anymore. I'm sorry.
